OBJECTIVE

Seeking a position as a chemical engineer.

EDUCATION/CERTIFICATION

B.S. Chemical Engineering, Chemical University. 1985

M.S. Chemical Engineering, Chemical University, 1987

Licensed Professional Engineer in Oregon, Washington, Idaho.

Include PE #s

ORGANIZATIONS

American Society of Chemical Engineers, 9/1990 to present

QUALIFICATIONS PROFILE

Detail-oriented professional in the field of chemical engineering

Chemical Engineering: Prepare water treatment plans to support water processing. Monitored and tested air emissions and evaluated, analyzed air pollution control processes. Utilize gas chromatography and dispersion modeling.

Process Design: Analyze plant and equipment needs. Establish lab procedures; ensure compliance with EPA guidelines, environmental regulations, and emission standards. Design digital control systems.

Computer and Administrative Skills: UtiMatlab, Simulink, Equation Solvers, Lotus; Microsoft Office. Order lab equipment and supplies. Prepare technical reports and documentation.

Key Strengths: Research and analytical skills, ability to communicate complex concepts, exceptional productivity and accuracy, well organized.

PROFESSIONAL EXPERIENCE**Chemical Engineering Firm, 2/2004 to 10/2010****Portland, Oregon**

Engineering Consultant.
